

fosera® Blue Line LAMPS

The **fosera**. Blue Line LAMPS use highly-efficient LED technology with a very long lifetime. They come in two versatile styles: Ceiling Lamp and Lamp mini to fit any solar home system size. With an efficiency of up to 137 lm/W they provide powerful lighting options for Blue Line SPARK and PSHS Solar Home System kits. The **fosera**. Blue Line Lamp mini is distinguished by its modern touch switch with three dimming levels: 15, 50 & 100%.

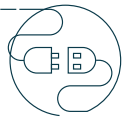

BRIGHT VERSATILE LIGHT RANGE

Offered in 100 to 200 lumen strength, solid bright light for any room

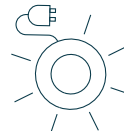

TOUCH SWITCH

Modern touch switch more resistant to wear and tear provides three dimming levels

PLUG & PLAY

Simply plug the lamp into a **fosera**. battery box and flip the switch for instant light

HIGHLY EFFICIENT

Up to 137 lm/W for a long lifetime of regular use
